Who we are

The mission of the Department of Commerce is to create the conditions for economic growth and opportunity.

ITA strengthens the competitiveness of U.S. industry, promotes trade and investment, and ensures fair trade through the rigorous enforcement of our trade laws and agreements. ITA works to improve the global business environment and helps U.S. organizations compete at home and abroad.

The U.S. Commercial Service is the export promotion arm of the U.S. government.
The U.S. Commercial Service is the lead trade promotion agency of the U.S. government. Trade professionals in over 100 U.S. cities and more than 75 countries help U.S. companies get started in exporting or increase sales to new global markets.
The world is open for your business.

Our global network of experienced trade professionals is located throughout the United States and in U.S. Embassies and Consulates worldwide. Whether you’re looking to make your first export sale or expand to additional markets, we offer the expertise you need to connect with lucrative opportunities and increase your bottom line.

Our Services

**Export Counseling**
- Develop effective market entry and sales strategies.
- Understand export documentation requirements and import regulations of foreign markets.
- Navigate U.S. government export controls, compliance and trade financing options.

**Market Intelligence**
- Analyze market potential and foreign competitors.
- Obtain useful information on best prospects, financing, laws, and cultural issues.
- Conduct background checks on potential buyers and distributors.

**Business Matchmaking**
- Connect with pre-screened potential partners.
- Promote your product or service to prospective buyers at trade events worldwide.
- Meet with international industry and government decision makers in your target markets.

**Commercial Diplomacy**
- Overcome trade obstacles to successfully enter international markets.
- Benefit from coordinated U.S. government engagement with foreign governments to protect U.S. business interests.

Let our global network work for you.

**Worldwide Recognition**
As the U.S. government, we can open doors that no one else can in markets around the world.

**Global Network**
Our unmatched global network with trade experts in more than 80 countries can provide you with on-the-ground knowledge and connections.

**Results Driven**
Our expert, in-person counseling is unparalleled and designed to help you succeed in global markets.
Who we are
U.S. Commercial Service – Connect with your local Trade Specialist!

Your local trade specialist can counsel you and connect you to resources across the globe.

export.gov/usoffices
US-Mexico-Canada Agreement (USMCA)

Prepare your business to take advantage of the benefits of the new agreement
Overview

1) Prepare for USMCA
   • Tariffs, Certification of Origin, De Minimis, Rules of Origin

2) Major Difference in Key Chapters
   • IPR, Customs Administration and Trade Facilitation, Agriculture, Financial Services, Textiles and Apparel, Advance Rulings

3) New Key Chapters
   • Good Regulatory Practices, Digital Trade, SMEs, Environment, Labor
Prepare for USMCA

Tariffs

• All products that have zero tariffs under NAFTA will remain at zero under USMCA.

• Canada will provide new and expanded access (via Tariff Rate Quotas) for U.S. exports of milk, cheese, cream, skim milk powder, condensed milk, yogurt, and several other dairy categories. It will also eliminate its tariffs on whey and margarine.

• For additional information on tariffs, including USMCA and applied tariffs, visit ITA’s FTA Tariff Tool.
Prepare for USMCA

Certification of Origin

Starting July 1, 2020, CBP will no longer accept the NAFTA Certificate of Origin (Form 434)

CBP has provided an optional certificate template on its website: https://www.cbp.gov/document/guidance/certification-origin-template

NAFTA blanket Certificates of Origin will only be valid through June 30. USMCA blanket certification of origin will be valid beginning July 1, 2020.
Prepare for USMCA

Certification of Origin
Nine elements required to claim origin under the USMCA

1. Importer/Exporter or Producer (indicate which is certifier)
2. Name and Address of Certifier
3. Name and Address of Exporter
4. Name and Address of Producer
5. Name and Address of Importer (if known)
6. Description and HS Tariff Classification of the Good
7. Specific Origin of Criteria
8. Blanket Period (certification is valid up to 12 months in the case of multiple shipments of identical goods)
9. Authorized Signature and Date
De Minimis

Canada will raise its de minimis level for North American express shipments, doubling it from C$20 to C$40 for taxes. It will also provide for duty free express shipments up to C$150.

Mexico will continue to provide tax-free treatment for express shipments up to US$50 and will provide duty free treatment for express shipments up to US$117.

The United States will maintain its de minimis level at US$800.
Prepare for USMCA

Rules of Origin

**Autos**
- Increases regional value content for automobiles from 62.5% to 75%.
- Requires labor value content rule that requires a certain percentage of each vehicle to be manufactured in a North American factory in which workers make average wages of at least $16 per hour.
- Increases regional value content for core, principal, and complementary auto parts, and requires that core vehicles parts be produced in North America, from regionally sourced steel, aluminum, and other key parts and materials.

**Chemicals**
- USMCA allows chemical processes to confer origin
- For chemical products in HS chapters 28 to 39, USMCA has added eight chemical reaction rules to confer origin in place of product specific rules of origin.

**Steel**
- For selected steel and iron products in HS chapter 73, USMCA requires that 70% of the steel by weight come from North America.
Major Differences in Key Chapters

**IPR**
- Protections for innovators and creators
- Comprehensive enforcement provisions
- Strong standards for trade secrets

**Financial Services**
- Liberalize financial services markets
- Facilitate a level playing field
- Expand trade in cross-border financial services

**Customs Administration and Trade Facilitation**
- Reduces costs and brings greater predictability to cross-border transactions

**Textiles and Apparel**
- Strengthens North American supply chains for textiles and apparel and opens new opportunities for U.S. yarns, fabrics, and apparel

**Agriculture**
- Maintains NAFTA’s existing zero-tariff treatment
- New market access for U.S. dairy farmers into Canada

**Advance Rulings**
- Available on a free, publicly accessible website
- Issue rulings no later than 120 days after obtaining information
New Key Chapters

**Good Regulatory Practices**
*Commitment to reduce and prevent non-tariff barriers through increased transparency, evidence-based decision-making, and whole-of-government internal coordination*

**Digital Trade**
*Sets predictable rules of the road and encourage a robust market in digital trade between the three countries*

**Small and Medium-Sized Enterprises**
*Promotes cooperation, establishes information-sharing tools, creates a SME committee and launches an SME stakeholder dialogue*

**Environment**
*Brings environment obligations into the core of the agreement, makes them fully enforceable, and represents the strongest provisions of any trade agreement*

**Labor**
*Brings labor obligations into the core of the agreement, makes them fully enforceable, and represents the strongest provisions of any trade agreement*
USMCA Resources

THANK YOU

David Olsen
Mexico Desk Officer
Office of North America
International Trade Administration
U.S. Department of Commerce
Creating a firm foundation for the expansion of trade and investment in innovative digital products and services.

- **Enhancing and protecting the global digital ecosystem:**
  - Prohibits customs duties and other discriminatory measures for digital products distributed electronically.
  - Ensures that data can be transferred cross-border and minimizes limits on where data can be stored or processed.
  - Promotes collaboration on cybersecurity, drawing on industry best practices for network security.
  - Limits governments’ ability to require disclosure of proprietary computer source code and algorithms.
Benefits

1. Provides protections for sensitive intellectual property in ICT goods that use encryption
2. Reduces compliance and production costs for manufacturers by allowing EMC and RF compliance requirements to be demonstrated via an electronic label
3. Streamlines the conformity assessment process by reducing third-party testing requirements for ICT goods and telecommunications equipment

The United States ICT industry supports approximately 800,000 manufacturing jobs. The U.S. exports close to $57 billion in ICT goods to Canada and Mexico every year.
You are welcome to type in your questions/comments in the Microsoft Teams Chat Box.

China’s Digital Silk Road: Business, Nat. Security & Geopolitical Impact

Date: Tuesday, June 30, 2020, 2-3pm ET  
Cost: $35  
Description: In May of 2017, Xi Jinping made the stunning announcement that big data would be integrated into China’s Belt and Road Initiative (BRI) to create China’s own version of a “Digital Silk Road.” Since that time, China has moved quickly to incorporate the digital side along with its hard infrastructure development as an integral part of its Belt & Road Initiative by (a) providing physical digital infrastructure (e.g., 5G cellular networks); (b) investing in the development of advanced technologies with important economic and strategic uses (e.g., artificial intelligence and quantum computing); and (c) creating digital free trade zones to facilitate international e-commerce. What are the implications of this for U.S. service and tech companies? Is your firm or its data potentially at risk? Does this impact the national security of the Host country?
