12f. CERTIFIER EMAIL	12g. CERTIFIER PHONE	THIS CERTIFICATE CONSISTS OF:	
		pages including all attachments.	

USMCA CERTIFICATE OF ORIGIN INSTRUCTIONS

1. EXPORTER

Provide the exporter's name, address (including country), e-mail address, and telephone number if different from the certifier. This information is not required if the producer is completing the certification of origin and does not know the identity of the exporter. The address of the exporter shall be the place of export of the good in a Party's territory.

2. BLANKET PERIOD

If the certification will be covering multiple shipments, this should be indicated by checking the box next to BLANKET PERIOD. "From:" is the date upon which the certification becomes applicable to the goods covered by the Blanket Certification (it may be prior to the date of the signing of this certification). "To:" is the date upon which the certification expires. In no instance should the certification exceed a 12-month period, and should be within the same calendar year. Complete this field if applicable.

3. SINGLE SHIPMENT

If the certification is only applicable to a single shipment, this should be indicated by checking the box next to SINGLE SHIPMENT and providing the Invoice # applicable to the single shipment. Complete this field if applicable.

4. IMPORTER

Provide, if known, the importer's name, address, e-mail address, and telephone number. The address of the importer shall be in a Party's territory.

5. PRODUCER

Provide the producer's name, address (including country), e-mail address, and telephone number, if different from the certifier or exporter or, if there are multiple producers, state "Various" or provide a list of producers. A person that wishes for this information to remain confidential may state "Available upon request by the importing authorities".

6. DESCRIPTION OF GOODS

Provide a full description of each good subject to the certification. The description should be sufficient to relate it to the invoice description and to the Harmonized System (HS) description of the good. If the certification of origin covers a single shipment of a good, indicate, if known, the invoice number related to the exportation.

7. HS CLASSIFICATION

For each good described in the certification, identify the HS tariff classification to six (6) digits as specified for each good listed. If the goods are subject to a specific rule of origin that requires eight (8) digits, identify the HS tariff classification to an eight (8) digit level.

8. ORIGIN CRITERIA

Specify the origin criterion (A, B, C or D) under which the good qualifies, as set forth in Article 4.2 (Originating Goods):

- A. Wholly obtained or produced entirely in the territory of one or more of the Parties, as defined in Article 4.3 (Wholly Obtained or Produced Goods);
- B. Produced entirely in the territory of one or more of the Parties using non-originating materials provided the good satisfies all applicable requirements of Annex 4-B (Product-Specific Rules of Origin);
- C. Produced entirely in the territory of one or more of the Parties exclusively from originating materials; or
- D. Except for a good provided for in Chapter 61 to 63 of the Harmonized System:
 - (i) produced entirely in the territory of one or more of the Parties;
 - (ii) one or more of the non-originating materials provided for as parts under the Harmonized System used in the production of the good cannot satisfy the requirements set out in Annex 4-B (Product-Specific Rules of Origin) because both the good and its materials are classified in the same subheading or same heading that is not further subdivided into subheadings or, the good was imported into the territory of a Party in an unassembled or a disassembled form but was classified as an assembled good pursuant to rule 2(a) of the General Rules of Interpretation of the Harmonized System; and
 - (iii) the regional value content of the good, determined in accordance with Article 4.5 (Regional Value Content), is not less than 60 percent if the transaction value method is used, or not less than 50 percent if the net cost method is used; and the good satisfies all other applicable requirements of this Chapter.

9. CERTIFICATION INDICATOR

Specify Certifier's authority (in accordance with Article 5.2) for certification of the good (A, B, C or D) -- SELECT ONLY ONE:

- A. Certifier is not the Producer, but has a certification or statement from the Producer*
- B. Certifier is the Importer**
- C. Certifier is the Exporter
- D. Certifier is the Producer

NOTE: Any good for which you are the Producer, always select Indicator D, even if another indicator may apply.

*All USMCA Certificates require a statement of the Certifier's status as either Importer, Exporter, or Producer. A good listed with an Indicator A should/will only ever be used as a supporting statement of USMCA eligibility and cannot be used as a basis to claim USMCA

preference on that good at time of entry. If the certifier or a recipient of this Certificate wishes to claim preferential treatment on a good listed with an Indicator A, they must issue a new USMCA Certificate declaring themselves as either the Exporter (Indicator C) or the Importer (Indicator B), as appropriate.

**Restrictions on use by country may apply, see Article 5.2

10. METHOD OF QUALIFICATION

For each good described in Field #6, where the good is subject to a Regional Value Content (RVC) requirement, indicate "NC" if the RVC was calculated according to the Net Cost method and "TV" if the good was calculated according to the Transactional Value method. If the good was qualified via a tariff shift, indicate "TS". If Origin Criterion A or C, enter "NO".

11. COUNTRY OF ORIGIN

Identify the country of origin of the good using the ISO Country Code ("US" or "CA" or "MX")

12. SIGNATURE BLOCK

This section must be completed, signed and dated by the authorized certifier. The date must be the date the Certificate was completed and signed. The Certifier's company, title, email and phone number must be provided.

13. PAGE COUNT

Include the total page count of the cover page + continuation page(s) containing eligible parts only. Non-eligible addendum and instructions should NOT be part of the total page count.
